

BURRITOS!!!!!!

Burro means "donkey" and burrito means "little donkey".

Juan Mandoz, from Mexico used a donkey to carry around his supplies. To keep the food warm he would rap it in a big homemade flour tortilla that is how it got it's name.

The burrito is a traditional food of the city Juarez in Northern Mexico.

Burritos are one of the most popular Tex-Mex items on the menu.

The term burrito was popular in Guanjuato, a state in central Mexico.

There is some suggestion that burritos are a war food, brought to America during the Mexican/American strife of the early 1900s.
